

C. BUILDING DEPARTMENT REVIEW

To obtain a building permit, your submitted plans will be reviewed by the Building Department for compliance with 2006 International Building Code and other County regulations. *Please be sure all of the following information is included, as omission of any item can delay the acceptance of your application.*

		1. If you are the property owner and are building the structure yourself, please provide the attached Homeowner Statement of Responsibility .
		2. If you are the general contractor, a notarized Authorization from the Homeowner or signed construction contract is required for you to apply and receive the building permit.
		3. Two sets of construction drawings to scale (i.e. 1/8" = 1 ft., 1/4" = 1 ft., etc.) on a minimum paper size of 11"x17" showing:
		a. Address, wind load, snow load , live and dead loads, and clearly marked scale. Plans will not be accepted without this information.
		b. Foundation plan showing footing and foundation sizes, rebar size and locations, and foundation details.
		c. Floor plan showing size and use of areas, windows and window egresses, door locations and size, smoke and carbon monoxide detectors, stairways, and decks.
		d. Floor framing plan indicating the connections, lumber species, grade, size, spacing and span of all members including any deck framing.
		e. Roof framing plan indicating the connections, lumber species, grade, size, spacing, and span of all members. Roof trusses are an engineered product and as such, we require stamped engineered truss drawings to be submitted prior to or at the framing inspection.
		f. Typical wall section indicating the types of materials and method of construction from the footing to the roof covering, size of walls, and steel placement in stem/basement walls.
		g. Elevations showing all exterior views with construction details and grades of North, East, South, and West.
		h. Deck frame
		i. Door, window, and header schedule
		j. Any special construction details, etc.
		4. If you are remodeling, renovating, or demolishing a structure, you must call the Colorado Department of Public Health & Environment (CDPHE) for an Asbestos Inspection and Report (303-692-3100). The asbestos inspector will inform the property owner about testing requirements and will require the property owner to send the inspection report to CDPHE verifying the inspection. CDPHE will notify the property owner if no regulated asbestos materials will be impacted during the planned renovation or if there will be abatement. This report must be submitted to the Building Department prior to permit issuance.
		5. Minimum of 50% of the permit fee.

Narrative of Proposed Work:

Construction type:

- | | | | |
|--------------------------------|------------------------------|----------------------------------|---------------------------------------|
